

Fuel Supplier Insulation Discount Schemes

Information updated: 04/05/07

These guideline prices are provided to us by the fuel suppliers and are correct at date of printing. Prices for properties other than a 3 bedroom semi-detached house may vary and exact price will be confirmed at point of survey. Prices include VAT. All prices are subject to a free, no obligation survey and we recommend that you get a number of quotes to ensure the best deal for your property.

* If your loft has over 2" of loft insulation already, you may not be eligible for a discount on top up loft insulation through some fuel suppliers.
