

APPENDIX 10 DRAFT MONITORING SCHEDULE

A10.1 The table below provides a draft monitoring schedule which could be used to monitor the effects of the Core Strategy DPD against the SA objectives. The indicators are effects which can be monitored. Where there are targets these are shown, and who has set that target is set out in the “source of target” column. There are many gaps in the schedule as there is further work to be done on this, and it will also depend on the final content of the Core Strategy when it is amended following the consultation period. Any suggestions for additional entries into the schedule will be welcomed.

SA Objective	Indicators	Targets	Source of Target
SA1 To provide all residents with the opportunity to live in a decent home which meets their needs	Net additional dwellings in previous years and net additional dwellings in future years	4840 homes to be delivered over the period 2006-2028, an average of 220 per annum	Hart District Council
	Long term population and dwelling projections		
	Projected population by age		
	Net additional pitches (gypsy and traveller)	Evidence study to be prepared to determine a local target	Hart District Council
	Gross affordable housing completions	To be determined	Hart District Council
	Size of new dwellings completed	Achieve mix from Strategic Housing Market Assessment (2009) any more recent evidence study	Hart District Council
SA2 To protect and enhance the health and well-being of the population	Life expectancy		
SA3 To encourage increased engagement in cultural activity, leisure, and recreation across all	Public open space		

SA Report Core Strategy: Preferred Approach

sections of the community			
SA4 To reduce inequality, poverty and social exclusion	Average gross weekly earnings		
	Average house prices		
SA5 To improve community safety by reducing crime and the fear of crime	Reported crimes		
SA6 To create and sustain vibrant and locally distinctive settlements and communities	Overview of number of units and vacancies within the six main centres		
	Number of vacant units at ground floor level within the six main centres		
	Total amount of floorspace for 'town centre uses'		
SA7 To protect and enhance the District's historic environment	Architectural heritage designations		
SA8 To protect and enhance biodiversity	Environmental designations		
	Change in areas of biodiversity importance		
	Capacity of Suitable Alternative Natural Greenspace (SANG)		
SA9 To protect and enhance the District's countryside and rural landscape			
SA10 To maintain and improve the water quality of the District's rivers and groundwaters and other water bodies	Number of planning permissions granted contrary to Environment Agency advice on flooding and water quality grounds		
SA11 To maintain and improve			

SA Report Core Strategy: Preferred Approach

soil quality			
SA12 To reduce the emissions of greenhouse gases and manage the impacts of climate change	Carbon dioxide emissions (tonnes) per capita		
SA13 To reduce the risk of flooding and the resulting detriment to the local community, environment and economy	Number of planning permissions granted contrary to Environment Agency advice on flooding and water quality grounds		
SA14 To increase energy efficiency, security and diversity of supply and the proportion of energy generated from renewable sources	Amount of renewable energy generation by installed capacity and type		
	Code levels for completed dwellings		
	BREEAM levels for non-residential developments		
SA15 To promote the efficient use of land through the appropriate re-use of previously developed land	Employment floorspace on previously developed land		
	New and converted dwellings on previously developed land		
SA16 To improve the efficiency of resource use and achieve sustainable resource management	Number of developments approved against the recommendation of the statutory water/sewerage undertaken on low pressure/flooding grounds.		Thames Water
SA17 To improve accessibility to all services and facilities			
SA18 To improve efficiency of transport networks by enhancing	Number of school travel plans		

SA Report Core Strategy: Preferred Approach

the proportion of travel by sustainable modes and promoting policies which reduce the need to travel			
SA19 To maintain and improve opportunities for everyone to acquire the education and skills they need to find and remain in work	Economically active		
	Number of unemployed Job Seekers Allowance claimants for the working age population in Hart		
	GCSE Qualifications		
SA20 To maintain high and stable levels of employment and promote sustainable economic growth and competitiveness	Economically active		
	Number of unemployed Job Seekers Allowance claimants for the working age population in Hart		
	Employment by occupation		
	Additional employment developments by type		
	Amount and type of employment land available		
SA21 To stimulate regeneration where appropriate and encourage urban renaissance
