**Representation: I strongly object to this proposal on the following basis:**

Current infrastructure in the area is not able to support existing new developments. Roads are in a terrible condition, schools and doctor surgeries are full and commuter train lines are full at peak times. It's been promised time and again that all of these things will be bolstered with a new development but nothing has changed and each new housing estate brings more congestion to the area.

I have lived in places all over the country and never experienced such a large number of housing developments in such a small area. Why Hart? Surely with the number of developments in recent years the quota has already been met?

During these proposals there has been little to no consideration to build on existing brownfield sites. This is obviously more 'effort' for builders and so it not an attractive option but there are so many derelict sites which could be utilised to minimise environmental impact and revitalise the surrounding community. Not to mention, the brownfield sites are well located !

As a fleet resident, I moved here because of the beautiful access to local countryside. With Winchfield due to be built on, I will now be reliant on access to caesars camp which is only protected currently because it is military land. Who knows when they may decide to sell up to local money grabbing councils.

Please consider the knowledge of local people and do not go ahead with building.

Regards

Louise Wright
