

Here for Hart Community Grant Scoring sheet

Assessor name:

Grant fund: up to £50,000

Project:

Supported by

Criteria	Description	Key strengths	Key weaknesses	Comments	Total
Eligibility	Is this organisation eligible as outlined in the Guidance document? (Y/N) with explanation.				
Helping residents stay well	Does the project demonstrate a significant contribution to residents' wellbeing, potentially reaching larger numbers of people, addressing more complex needs or delivering preventative or early intervention activities?				
Inclusion and Community connection	Will the project strengthen inclusion and connection across communities, potentially working with multiple groups, partners or locations?				

	Does the application demonstrate intentional approaches to accessibility, engagement, and reaching under-represented residents?				
Supporting residents facing challenges	Will the project support residents experiencing economic, emotional or social challenges, helping them adapt and or move towards improved circumstances?				
Long-term benefit	Does the project demonstrate a strong understanding of the challenges faced by residents and how the proposed activity will address these in a meaningful, coordinated way (which may include working with people facing multiple or ongoing barriers)?				
Increasing organisational capacity	Does the project strengthen the organisation's ability to deliver community benefit, such as developing skills, systems, volunteers or partnerships?				
Deliverability	Does the application include detailed delivery plans, clear roles and responsibilities, and evidence of organisational capacity or partnerships?				

	Does the application demonstrate strong governance, risk awareness and the ability to manage larger budgets and more complex delivery?				
Value for money	Does the application clearly demonstrate how the level of investment will deliver proportionate and significant outcomes? Are the budgets robust, well-explained and show careful consideration of cost effectiveness and impact?				
Sustainable beyond project funding	Does the application clearly set out how the project will create lasting change, including plans for sustainability beyond the grant, potential future funding, partnership working or embedding successful approaches into ongoing provision?				
Impact on the environment	Do projects with a neutral or negative impact include ways in which they can mitigate to show alternative positive impacts? Do any proposed building works consider sustainability in their design?
