Reference: Crookham Village Neighbourhood Plan  
2016 – 2032 Additional Evidence Representation

I live at [REDACTED]

[REDACTED]. This message is to support all the additional evidence on the gaps in the draft Crookham Village Neighbourhood Plan.

We really need the gaps described in the evidence and Policy NE01. We rely on the gaps to keep the distinct character of Church Crookham, Crookham Village and Fleet. I see the green gaps daily as I drive in the area or walk with my children along the canal and footpaths in Crookham Village. The gaps give us views and open space and they maintain the rural nature of our neighbourhood. Without them, it would all become part of an ever-growing Fleet.

Please protect the gaps and adopt the Neighbourhood Plan with this policy and evidence.

Yours sincerely, Nicki Wilson
