I fully support the Neighbourhood Plan for the following reasons

1. Policy NE01 - This is critical for the local community. We must protect the gap which makes the village a village. I have been restoring the forge house for a number of years. When fixing the chimney it is very clear from the roof the importance of the gap.
2. Crookham Village is the last village on the border of Fleet. If the local plan is not passed we would lose the village as it has been for hundreds of years
3. Crookham Village does not have a facility to support any additional change, this is well covered in the neighbourhood plan.
4. Protecting the Conservation Area is so important, both Crookham Village and Dogmersfield are surrounded by country side. It is so important this is not lost, the wildlife is unique in this area

Thanks

John
