Dear Sirs,

I wish to preserve the gap between settlements as the separate and linear nature of the village should be maintained and I wish to maintain this as I walk through the village and enjoy the openness and views from the footpaths. The village should not be joined to the urban environment encroaching from Fleet as this would spoil the character of the village. The villages of Crookham village and Dogmersfield should be kept separate to reflect their unique nature.

The lack of infrastructure makes further development unwise and these gaps provide relief from bleak urbanisation

Regards

Clive Eastwood
