- **Grove Farm Area** - I support this evidence because keeping this local gap prevents Crookham Village merging with Church Crookham and Fleet to make one big conurbation. This gap protects the separate identity of Crookham Village.

This is because I recognise the areas described in the landscape evidence. I use the footpaths here regularly and I value this unique and diverse location. The gap provides a sense of space and openness and ensures that it is different from the urban environment of Fleet and Church Crookham

In addition, the gap between Fleet and Crookham Village is already being eroded by developments such as at Grove Farm and it is important to keep what remains.

Cross Farm, Peatmoor Close and Hart Flood Plain

This is because I recognise the areas described in the landscape evidence. I use the footpaths here regularly and I value this unique and diverse location. I believe that the gap between Church Crookham and Crookham Village is already being eroded by developments such as at Watery Lane and it is important to keep what remains. The gap is important to the Conservation Areas of Dogmersfield and Crookham Village. Fleet and Dogmersfield have a different sense of identity from Crookham Village and it is important that they are kept separate. This is rural and attractive countryside that forms the setting of the separate settlement of Crookham Village.
