I visit my parents regularly and I wholly support Policy NE01 stipulating the need for Crookham Village to have a local gap, in order to prevent it simply coalescing into one total urbanisation with Fleet, Dogmersfield & Crookham Village.

Communities need to keep their own individual character but relentless over development with no natural spaces eradicates this.

Walking the dog, talking to residents, observing/protecting/conserving all the natural wildlife is a vital requirement to help overcome the increasing problems caused by choking traffic & congested, built up housing areas.

Kind regards,

Marie King
