Re: Appendix 3 supporting evidence for the whole Policy NE01 Preserving the Gap Between Settlements.

Name and Address:

Mrs Sara Kinnell

[REDACTED]

The gap that preserves the separate identity of Crookham Village and prevents it merging with Church Crookham, Fleet and Dogmersfield to form one big conurbation is incredibly important to the community that I live in and I. This gap provides a sense of space, openness and views around the village which must not be lost and is already being eroded by developments such as at Grove Farm and Watery Lane. We must preserve what remains.

This gap is rural and attractive countryside that forms the setting of the separate settlement of Crookham Village.
