<p>Please give details of your reasons for support/opposition, or make other comments in the box below. Please be as precise as possible.</p> <p>”The Inspector in the examination of the Emerging Hart Local Plan has accepted that the principle of a policy approach to avoiding coalescence and maintaining the separate identity of settlements in the future”</p> <p>I am fully supportive of this statement and the approach that it embodies. Most of the existing verdant character of the entire Fleet-Church Crookham /Crookham Village/Dogmersfield/Crondall sector of Hart District is dependent on the vital Local Green Gaps between the historic settlements together with their designated Conservation Areas. The Basingstoke Canal Conservation Area is a critical thread passing through and connecting three of these settlements and thereby linking many of these green gaps and holding a lot of these characteristics together.</p>

The Green Gap provided by the Cross Farm, Peatmoor Copse and River Hart Floodplain site is critical to maintenance of the character of Crookham Village. This is the gap I know best. I fully support the case made for its protection in the 8 paragraphs of this section of Policy NE01.
