- While I understand the need to develop a plan which allows sustainable development I think it is very important to maintain the local gaps between Crookham Village, Church Crookham, Dogmersfield and Fleet
- The nature of these local gaps is that they provide a rural and attractive countryside escape within minutes Fleet town and it's essential shops, community services and day-to-day convenience
- The gaps preserve the separate nature of Crookham Village as a historic place, distinctive from the developments that have grown around it and any planned development maintains this in the future
- I live on [REDACTED] and as a keen runner and cyclist I use the Basingstoke Canal 3-4 times per week, more frequently in the summer as well as enjoying walks with my family in the evening and at weekends.
- I hugely value the peaceful rural nature of the area bordering Zebon Copse and the existing gap with Crookham Village as it really improves my mental health and wellbeing, even though we are surrounded by urban developments and busy roads which the area does suffer from due to the

increasing population.

- There has been significant development in Church Crookham (QEB, Redfields GC, BUPA Care Home) already impacting the local gap with Crookham Village and increasing traffic volumes to Fleet, Hart Leisure Centre and Fleet station.
- Already approved developments at Watery Lane and now Grove Farm mean the local gaps are increasingly important to current residents and future ones, I believe it is vitally important that future development in and around Crookham Village should be restricted to protect this beautiful environment for my children to enjoy.
