**Concerning: Crookham Village Neighbourhood Plan 2016 – 2032 Additional Evidence Representation**

Dear Hart District Council Corporate Services team,

I wish to support the additional evidence on the gaps in the Crookham Village Neighbourhood Plan. I am writing about all the evidence together.

The rural nature of our neighbourhood relies on the gaps established by the new evidence and protected in the draft Neighbourhood Plan. If we lose the gaps, Fleet would simply merge with Crookham Village, Church Crookham and Dogmersfield, and the distinct character of each settlement would be lost. We would lose the feeling of living in the countryside and we'd lose our enjoyment of using the gaps, walking along the footpaths and enjoying the open views.

I have commented on several draft plans, and I know from consultations and hearing neighbours that the issue of maintaining the gaps is a top priority for the community.

Please keep policy NE01 and the excellent supporting evidence for it.

Yours sincerely,

Kanpitcha Byrne
