

Authority Monitoring Report (AMR) 2018-19 – Addendum

Published: 22 June 2020

This addendum relates to Appendix 3 (Housing Trajectory 2014 – 2032 as at 1 April 2019) of the AMR 2018-19 published February 2020.

The table below adds an ‘Appendix 3e’ to the AMR which sets out the phasing of the outline planning permission at Netherhouse Copse. This forms part of the total projected completions in line (1) of the housing trajectory table in Appendix 3.

The application for the site at Netherhouse Copse (16/01651/OUT) has outline planning permission for 423 dwellings. A subsequent full planning application for 172 of these dwellings was approved on 20 February 2019 (application reference 18/01795/REM) and the phasing for these units can be seen in Appendix 3c. The phasing for the remaining 251 dwellings can be viewed in the table below.
