To which part of the Neighbourhood Plan does your representation relate?

Paragraph Number:

Policy Reference: Site 2b, SHLA179 Mill Lane

Do you support, oppose or wish to comment on this paragraph? Support

If your reasons for support/opposition, or make other comments in the box below, including any specific changes you wish to see to the Plan. Please be as precise as possible.: I believe the building of such houses would be the best way to improve the appearance of Mill Lane as you drive in from the A287. I feel also that a development of houses on this land would also discourage any further industrial developments or expansion of existing industrial developments. I would also like to think that as part of the planning approval Hart District Council would insist on the housing developer improving the junction with the A287 as this is still a very dangerous junction given that most vehicles on the A287 exceed the 50 mph limit.
